1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In Claims

Claims 4-14 are cancelled.

2. The following is an examiner's statement of reasons for allowance: withdrawal of obviousness-type double patenting rejection and prior art rejection of former claims 1 and 2 in view of applicant's further amendment of claim 1 so as to distinguish the claimed invention patentably from that of the prior art of the record. Newly presented claim 15 is allowed. Claim 14 a formerly objected to dependent claim 3, in its independent form.

Applicant's argument that obviousness-type double patenting rejection in view of three U.S. Patent applications, namely 10/871,427, 10/999,231 and 10/999,226 (U.S. Patent 7,109,656) should be withdrawn because these three applications were filed after filing of the instant application, is not found persuasive. The obviousness type double patenting rejection in its normal practice should be issued so long as the claims of

instant application conflicts with any claim(s) of the co-pending application regardless of their filing dates. The Examiner's withdrawal of the obviousness-type double patenting rejection is not because applicant's arguments are persuasive, but is simply because of further amendment of independent claim 1 narrowing the scope in view of the co-pending application(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
